INTRODUCTION

COFFEE COUNTY was formed in 1836 from Bedford, Franklin, and Warren counties. It was named in honor of General John Coffee who distinguished himself in the War of 1812.

This publication has been transcribed from a microfilm copy of the original census as found in the National Archives, Washington, D. C. The census taking was supervised by the marshals of several judicial districts, who employed assistant marshals to act as enumerators. There is a marked variance in handwriting. No attempt has been made in this publication to correct mistakes in spelling made by the assistant marshals, and the names have been reproduced as they appear upon the census schedule. For this reason one should check for all conceivable spellings of any surname being sought. The numbers given in brackets in the body of this publication represent the page numbers given in the microfilm copies.

The schedules which these officials prepared consist of a column of names of heads of families, followed by other columns giving statistical information on the family. Symbols have been added in this transcript to denote professions and other data pertinent to the families. If there is no symbol by the family in question, it can be assumed that they were engaged in agriculture. This category was so numerous that it is not given a symbol. Other symbols have been used as follows:

- s - slaves in the household
- m - person or persons in the household engaged in manufacturing
- c - person or persons in the household engaged in commerce
- l - person or persons in the household engaged in a learned profession

A Revolutionary Pensioner living in the household is denoted by RP. For a full list of these pensioners see page 53.
